

### KGAS Series

Resistance Range  
0Ω - 10MΩ  
TCR  
100ppm, 400ppm

Tolerance  
0.5%, 1%, 5%  
Power Ratings  
1/16W - 1W

English Case Sizes  
0402, 0603, 0805, 1206, 1210,  
1218, 1812, 2010, 2512

### TFA Series

Resistance Range  
0Ω - 10MΩ  
TCR  
100ppm, 400ppm

Tolerance  
1%, 5%  
Power Ratings  
1/16W - 1W

English Case Sizes  
0402, 0603, 0805, 1206, 1218,  
2010, 2512

## Why Choose TFT

### Specialty Commodity Resistors

TFT's thick film offerings provides high quality and reliable options for projects requiring anti-sulfur or automotive grade parts. Our sales engineering model works with you to find the best component solution to achieve your project needs. Find out more on [thin-film.com](http://thin-film.com).

## Applications

- Data Storage Centers
- Industrial Motor Controls
- Server Farms
- Infotainment
- Navigation
- Desktop Computers

## About TFT

Thin Film Technology Corp. (TFT) is the senior member in a new global high performance electronic passive components group, EiG Group. As senior member, TFT leads by example in integrity, quality, discipline, and performance.

These internal principles are carried throughout the organization and out to our valued customers.

TFT's experience and performance will add value and competitive advantage to the TFT brand, establishing a foundation on which to build sustainable, growing business.

Visit our virtual booth on the [electronica website](http://electronica.com) or learn more about our products and offerings at [thin-film.com](http://thin-film.com).

## Specialty Commodity Offering

High-Grade Anti-Sulfur & Automotive  
KGAS Series

- Jumpers Available
- AEC-Q200 Qualified
- EIA-977-B 105°C Anti-Sulfur Resistant

Automotive  
TFA Series

- AEC-Q200 Qualified
- Moisture Resistant

High-Grade Anti-Sulfur  
TFAS Series

- Jumpers Available
- EIA-977-B 105°C Anti-Sulfur Resistant
