

Thin Film Technology Corp.

Compliance Statement

REACH

Regulation (EC) 1907/2006 (211)

Statement Issue Date: January 19, 2021

Products Covered: All products manufactured or sold by Thin Film Technology unless the product is specifically stated otherwise.

The European Union's REACH Regulation (EC)1907/2006 (Registration, Evaluation, Authorization, and Restriction of Chemicals) has entered into force since June 1, 2007 and had been implemented step by step starting from June 1, 2008. REACH requires Thin Film Technology to provide customers with sufficient information on Substances of Very High Concern (SVHC) contained in our products in concentrations above 0.1% weight by weight (w/w) to allow for safe use of the product.

To comply with this requirement, Thin Film Technology certifies that to the best of its knowledge, all products that it manufactures and supplies do not contain certain substances listed on the Candidate List of Substances of Very High Concern, as updated on January 19, 2021, in a concentration above 0.1% weight by weight. As of January 19, 2021, the SVHC list included 211 substances.

Validation Method

Thin Film Technology gathers declaration information from each of our suppliers any time that there are changes to the SVHC list. All of our suppliers have also agreed to perform the same due diligence process of working with their suppliers for the same, so that we can cover the entire supply chain.
